Agenda & Overview

Overview

Data collection is an integral part of CMS' hospital quality improvement initiatives. CART, the CMS Abstraction & Reporting Tool, is a powerful application for the collection and analysis of quality improvement data. Through data collection, retrospective analyses and real-time reporting, CART enables hospitals to comprehensively evaluate and manage quality improvement efforts. Whether a hospital is seeking Medicare certification or undertaking its own quality improvement initiatives, CART is ideal for the data collection and analyses that are essential to the success of all quality improvement efforts.

Navigating the data collection process can be complicated. The Kansas Department of Health and Environment, in partnership with the Kansas Hospital Association and the Kansas Hospital Education and Research Foundation, is offering CART Abstraction Training. This training will give the rare opportunity to abstract medical records together, as a group, utilizing the CMS Abstraction & Reporting Tool.

Specific topics covered in this training include:

- Overview of MBQIP
- Components of quality data collection
- CART: Group abstraction of medical records
- How to report CART data to Quality Net
- Review of medical records with specification manual

Reporting of data is required for continued eligibility for SHIP funding.

Agenda

9:30 a.m.	Registration
9:45 a.m.	Course Instruction
11:30 a.m.	Lunch Break
noon	Course Instruction
2:00 p.m.	Adjourn

Presenter - Susan Runyan

Susan Runyan started her own consulting firm in October 2016. She primarily assists Critical Access Hospitals with quality improvement activities and programs, along with quality data reporting. Runyan's background includes more than 14 years in hospital risk and quality management. Most recently, she served as program director for the Kansas Healthcare Collaborative. She also has served as a quality improvement project manager for the Kansas Foundation for Medical Care, Inc.. Runyan has expertise in teaching Lean and Plan-Do-Study-Act methodologies, as well as other performance/quality improvement training.

She obtained her master of health care leadership from Friends University and a bachelor of science degree in health care administration from Southwestern College. Runyan received her Six Sigma Green Belt certificate in health care from Villanova University, Villanova, PA.

Attire

Business casual attire is suggested for this seminar. The temperature in meeting rooms is somewhat difficult to control; therefore, we recommend you dress in layers to allow for these variances.

Special Services

The Kansas Hospital Association wishes to ensure that no individual with a disability is excluded or denied services due to the absence of auxiliary aids or services. If you need any aids or services identified in the Americans with Disabilities Act, contact Susan Cunningham at (785) 233-7436 or scunningham@kha-net.org.

Financial Support

This program was federally funded through KDHE-BCHS-FLEX Program. The FLEX program is managed by the Federal Office of Rural Health Policy, Health Resources and Services Administration, U.S. Department of Health and Human Services.
