

Empowering Patient Experience Through Mobile Power

Who We Are?

BatteryXchange is a mobile energy platform that provides rentable charging stations for phones and hospital spaces.

We combine physical kiosks with a digital experience that improves patient experience with access to power while enabling engagement.

How Our Tech Works

- 1 Download the BatteryXchange app
- 2 Create an account in a few steps
- 3 Scan the kiosk QR code for a battery
- 4 Return the used battery to ANY kiosk

Placement Opportunities:

- ER's, Infusion centers, OB units, waiting rooms, staff lounges

Value Proposition:

- Provide Access to Resources for Visitors
- Workforce Development
- Hospital Preparedness

Innovation Opportunity:

- Use digital assets for revenue generation.
- Smart Check-In Journey
