Join us as Kara shares her bold vision for the future of CKF, including the transformation of the historic

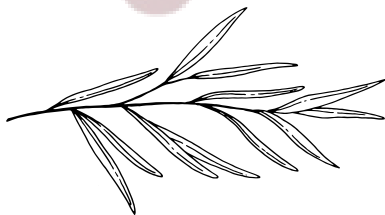

Paul Laurence Dunbar School

into a vibrant community hub for recovery and healing!

We are also accepting donations to support the restoration of the Dunbar School and the expansion of the Pathfinder Recovery Center, helping us create a vital space for those in recovery.

Built as a beacon of education and community during a time of segregation, the Paul Laurence Dunbar school has long stood as a symbol of resilience and strength. Now, decades later, we have the opportunity to breathe new life into this building, transforming it into a center for hope and recovery.
