Hospitals Give Accolades to Senator Moran

We appreciate his focus on a plan that provides access to health care

(June 27, 2017) Kansas hospitals praise Senator Jerry Moran's decision to not support the Better Care Reconciliation Act of 2017. This legislation would have increased the number of uninsured Kansans and hospitals' uncompensated care costs, yielding health care access and financial outcomes that are bad for Kansas.

Sen. Moran's decision is another example of his commitment to health care in Kansas and his advocacy for access to high quality health care across our state.

We appreciate his commitment to improve this legislation "... with a plan that makes certain Kansans will have access to more affordable and better quality health care."

The Kansas Hospital Association is a voluntary, non-profit organization existing to be the leading advocate and resource for members. KHA membership includes 212 member facilities, of which 127 are full-service, community hospitals. Founded in 1910, KHA's vision is: "Optimal Health for Kansans."
