KHA Encourages Kansans to Celebrate Hospital Week

National Hospital Week: May 9-15, 2021 – Inspiring Hope Through Healing

(May 10, 2021) – This week, the Kansas Hospital Association is joining our members in celebrating hospitals, health systems and staff who support the health and well-being of their communities. National Hospital Week, celebrated the first full week in May since 1921, provides an opportunity to highlight health care workers and the innovative ways they support the needs of their communities.

KHA and the American Hospital Association are releasing a number of fun and inspiring videos on social media this week. “[Can’t Keep a Good Thing Down](#)” celebrates individuals working in Kansas hospitals, the real-life superheroes. KHA and AHA collaborated on “[Moments](#),” which commemorates all the efforts of health care workers during a year like no other. Additionally, AHA collaborated with Musicians on Call to create “[Worth Fighting For](#),” an original song and video inspired by health care workers.

Celebrating National Hospital Week gives us an opportunity to thank all of the dedicated individuals – physicians, nurses, therapists, engineers, food service workers, volunteers, administrators and so many more – for their contributions.

The Kansas Hospital Association is a voluntary, non-profit organization existing to be the leading advocate and resource for members. KHA membership includes 222 member facilities, of which 122 are full-service, community hospitals. Founded in 1910, KHA’s vision is: “Optimal Health for Kansans.”
