## 100% HEALTHCARE FOCUSED

HOSA Future Health Professionals is a career student technical organization that focuses on exploration of health care fields. Our mission is to empower members to become leaders in the global health community.

Students engage in health care career exploration, teamwork events, leadership events and so much more through Kansas HOSA!

We currently serve almost 1,000 middle school through collegiate Kansas students!

## CAREER STUDENT TECHNICAL ORGANIZATION

Are you a medical professional, hospital administrator, or health care related professional who wants to get involved?

We have opportunities for sponsorships, advertising, partnerships, newsletter inclusion, expo tables, break-out sessions and more!

### WANT TO START A CHAPTER?

A school needs an adult advisor and a minimum of 5 students to start. Affiliation fees are \$20 each. Partnerships with KHA are available or are encouraged with regional medical facilities.

### HOW MUCH TIME WILL IT TAKE?

HOSA is meant to be student led - once the chapter is established, the advisor will host the meeting space, provide supervision and guidance, as well as coordinate events and travel.

### EVENTS

Kansas HOSA holds a fall leadership conference to teach our members about HOSA, leadership, and to prepare for competitive events. Our spring leadership conference is when we hold our competitive events which range from knowledge based to skill based events.
