MAF804A Updated: May 24, 2023

Patient Name _____	Date _____	Time _____
Originating Facility _____	Destination Facility _____	
Destination Unit & Room No. _____		
Diagnosis & Reason for Transfer _____		
Print Sending Physician's Name _____	Sending Physician's Phone Number _____	

Transfer Criteria: Johnson County MED-ACT is a 9-1-1 emergency medical service agency to provide out-of-hospital emergency medical care. MED-ACT will provide interfacility transfer service for acute and emergent patients. Please contact the Johnson County Emergency Communications Center by dialing 9-1-1. A dispatcher will collect information regarding the patient's status and will refer the request to a MED-ACT Battalion Chief for approval. Please be ready to provide the name and phone number of a nurse or provider who has knowledge of the patient's condition and needs. This person will receive a phone call from a Battalion Chief within 10 minutes.

Hospital Provided Clinician Criteria: Johnson County MED-ACT ambulances are staffed by Paramedics and EMTs with the knowledge and skills to perform pre-hospital medical care. MED-ACT Clinicians are not trained on the operation of in hospital devices and certain medications. To ensure patient safety and appropriate care throughout transport, MED-ACT may require the hospital to provide a Clinician to accompany the patient throughout the transfer.

Criteria Requiring a Hospital Provided Clinician

1. Medications requiring titration and/or require an IV pump for administration during transport, unless approved by the Johnson County EMS System Medical Director.
2. Ventilatory Support other than a Bag-Valve-Mask.
3. Deep sedation and/or paralytic use.
4. Any mechanical life-saving device. (i.e. ECMO, Balloon Pump, etc.)
